

How **Advisory Board** supports you and your organization

We distill best practices from across the health care industry—and post-acute care, specifically—to help you solve your biggest challenges. Our membership is divided into three categories: **implementation support, executive education and guidance, and data and analytics support.**

The value of membership

Executive education and guidance

▶ BEST PRACTICE RESEARCH

Research is at the core of everything we do, and it guides all of our other services. Our research acknowledges that organizations nationwide face similar issues and pressures. We distill best practices from care settings across markets to educate our members on innovative approaches with proven results.

Review our [infographic](#) on reducing delays during care transitions to understand what commonly delays acute/post-acute transitions, strategies to minimize those delays, and how to be a better partner.

▶ EXPERT CONSULTATION

Direct consultation with the experts who produce our research helps members translate our insights into day-to-day improvement. With unlimited access to our experts, most members speak with us monthly or quarterly.

Consult with an [Advisory Board expert](#) on acute/post-acute partnerships to learn the best ways to improve the utilization of a preferred network of post-acute providers.

Implementation support

▶ FACILITATED WORKING SESSIONS

Advisory Board leaders hold private sessions with our members to help translate our research into action. Members can select from a variety of topics to best suit their needs

Invite your [leadership team](#) to this session. We will discuss our research on the most pressing challenges in the post-acute care industry, provide answers to the board's questions, and detail opportunities for growth.

▶ STEP-BY-STEP IMPLEMENTATION GUIDANCE

Our toolkits translate best practices to action. We provide flexible, step-by-step guides that allow members to focus on their most critical issues. Topics include acute/post-acute partnerships, speciality service line development, and improving patient and family experience

Use the [Post-Acute Consortium Toolkit](#) to help health systems and their post-acute partners establish a post-acute care committee that benefits everyone.

Data and analytics

▶ DATA AND ANALYTICS SUPPORT

Unlimited access to our user-friendly tools allows members to drill down on data and set strategic priorities. Our experts organize the data in ready-to-use reports to highlight top-of-mind metrics and opportunities for improvement.

Access our [Post-Acute Pathways Explorer tool](#) to understand the local dynamics in your market, including opportunities for better alignment to reduce readmissions and episodic cost.
